

Any person, who is in good health and clear of defined chronic diseases may be an organ or tissue donor.

There is no costs involved in becoming an organ or tissue donor, and your family will not bear the cost of the donation.

Your corneas, skin, bone and heart valves can be transplanted!

ORGAN DONOR MONTH

WCMIS

To become an organ or tissue donor Register online at www.odf.org.za or call the Organ Donor Foundation toll free on 0800 22 66 11

There are approximately 4300 South Africans awaiting a life-saving transplant for either organs or corneas.

In 2013 there were 566 transplants of either organs or corneas.

Your heart, liver, pancreas, kidneys and lungs can be transplanted!

Your family will not get any compensation for your organs, and it is illegal to trade in organs and tissue.

One organ donor can save 8 lives.
